

## 1<sup>st</sup> Women's Career Day Magdeburg 28-29.09.2011

Although numbers of female students and postdocs significantly grew over the past decade, women are still underrepresented in leadership roles in science and technology. Therefore, the Graduate Program 1167 invites you to a Women's Career Day to discuss career options, work-family balance and strategies to develop leadership qualities.

Our guests are female scientists from different fields of activity, both academia and industry:

Prof. Ileana Hanganu-Opatz, Emmy Noether group at the ZMNH Hamburg  
Prof. Christine Rose, Heinrich Heine University Düsseldorf  
Prof. Sigrid Saaler-Reinhardt, Johannes Gutenberg University Mainz  
Dr. Isabell Schwenkert, Ascenion GmbH Hannover  
Dr. Birgit Gaschler-Markefski, Boehringer Ingelheim

We invite young scientists (max. 30 people; men are also encouraged to join) from the GRK, but also from the corresponding SFBs 854 and 779 as well as from the Leibniz Graduate School "Synaptogenetics".

Day/Time	Program	Location
